Will She Love Me

You're goin' right the superlady station
fraggin' down this walls for to see
runnin' down for me the session
and bragginn' down this love burgalee
on the raggin' sound
yes on the raggin' sound

Friday night is all what you see
rockin' down the streets for L.A.
Burgin' frize and porkestry
and you know what you will say
because he's the love man of this kind
and what you ever have learned about it
is not true, is not true

See all this kind of man
is runnin' down the say
true love is the ever love as the day
You find about it just you love me on the
southed is all like the others is the day
and it's ragged down but on rage bown seek a
home rage bown home for the day-ay
And the golden eye is all what you're
seekin' for and the golden eye watches see
The golden eye is all what you're seekin' for
and all the burgin' down the lovers see

Will she love me (fade out)
